*Reimbursement Disclaimer: Coloplast Corp. provides this information for your general reference and related to the reimbursement of Coloplast products only. Reimbursement, coverage and payment policies can vary from one insurer and region to another, and may change over time. Coloplast does not guarantee coverage or payment of products.

SpeediCath® catheters are indicated for use by patients with chronic urine retention and patients with a post void residual volume (PVR) due to neurogenic and non-neurogenic voiding dysfunction. The catheter is inserted into the urethra to reach the bladder allowing urine to drain. This device is intended for females only and is a single-use only product. Patients are to contact their healthcare professional before performing self-catheterization for the first time and follow the instructions carefully. See the device manual for further information or, call Coloplast Corp. at 1-866-226-6362 and/or consult the company website at www.coloplast.us. Rx Only.

1. Product evaluation of SpeediCath Compact Set, response from 70 HCPs and 550 end-users, Feb. to Sep. 2013.

The most compact catheter for women

SpeediCath® Compact Female

SpeediCath Compact Female is the first catheter that is designed to fit the female urethra, and when unopened the package is no longer than a lipstick. This makes it an optimal choice for full discretion.

- Compact Plus is available for women who want discretion but require a longer catheter.
