

The SpeediCath® Family

of hydrophilic intermittent catheters

SpeediCath® intermittent catheters

Discretion... Performance... Quality

The SpeediCath® catheter family is an innovative range of single-use, hydrophilic-coated catheters for intermittent catheterization. They are packaged in a sterile saline solution making them instantly ready-to-use. They have been evaluated in a number of small post-market clinical studies and have delivered results on key parameters such as convenience, safety, ease of use, discretion and patient performance.^{1,2,3,4,5,6,7,8}

SpeediCath catheters offer both men and women:

- The first instantly ready-to-use catheter
- The first compact catheter
- The first all-in-one compact catheter and bag solution

“Before I used to always plan everything. Now I just get on and enjoy what I’m doing.”

Neil, SpeediCath Compact Male user[†]

[†]Neil is a SpeediCath Compact Male user who provided this information to Coloplast. Each person's situation is unique so your experience may not be the same. Talk to your healthcare provider about which product is right for you.

SpeediCath® with Triple Action Coating Technology

To protect the mucosa from the risks of damage, complications,* and potential UTIs, patients need a coating that **stays bonded**, **stays smooth** and **stays hydrated**.

Stays *bonded*
for a long-lasting,
even coating without
dry spots

Stays *smooth*
for easy insertion
and reduced friction*

Stays *hydrated*
so it is always ready-
to-use

*compared to uncoated catheters

SpeediCath® for *men*

SpeediCath® Flex Coudé Pro

Every detail makes it easy

SpeediCath® Flex Coudé Pro is a soft, flexible catheter with a dry-sleeve and a curved tip. It has a range of features designed to make every step of catheterization easy.

SpeediCath Flex Coudé Pro offers:

- Hygienic as it is instantly ready-to-use with a dry-sleeve and a soft squeeze grip
- Flexible catheter with a fixed, curved tip which can bend to follow the curves of the urethra
- Discreet standard length catheter packaged in two compact sizes
- Soft catheter allows for easy handling
- Easy to open, easy to close and completely aluminum-free, reducing its CO₂ footprint
- Standard and pocket size packaging

SpeediCath® Flex Set

The new SpeediCath Flex Set comes as a catheter and bag solution with Triple Action Coating Technology and a flexible, straight tip. Not only is insertion smooth and gentle, it is also designed to reduce the risk of urethral damage and UTIs.^{9*} It has a flexible tip for easy insertion and navigation of the male urethra and a dry-sleeve to support a hygienic, no-touch catheterization.

SpeediCath Flex Set offers:

- Designed to reduce the risk of urethral damage and UTIs
- Smooth and gentle insertion
- Flexible tip for easy insertion and navigation of the male urethra
- Dry-sleeve to support a hygienic, no-touch catheterization

*compared to uncoated catheters

SpeediCath® Flex Set with Accessories

The new SpeediCath Flex Set with Accessories is an integrated solution with catheter, urine bag and accessories, which contains everything that is needed for aseptic catheterization. The product has been designed for use in the clinical setting and developed to limit the risks of contaminating the sterile kit prior to use.

The product comes with the following sterile content:

Closed system catheter:

- 1 SpeediCath Flex Set

Accessories:

- 1 pair of gloves
- 1 drape
- 3 aseptic swab sticks soaked in BZK

SpeediCath® Compact Male

Designed for discretion

SpeediCath® Compact Male is the most compact catheter for men, perfect for use at home and on the go. Like all SpeediCath catheters it's a pre-lubricated hydrophilic catheter and ready to use when you need it, right out of the package.

SpeediCath Compact Male offers:

- Discreet packaging - easy to store, use and dispose
- Instantly ready-to-use - no mess or fuss
- "No-touch" insertion and withdrawal
- Easy attachment to provide urine collection bag, if desired

SpeediCath® Compact Set

The first compact all-in-one catheter and bag solution for men

SpeediCath® Compact Set is an all-in-one catheter and bag set that's instantly ready-to-use and thanks to a revolutionary design, is small enough to keep in a pocket or bag.

SpeediCath Compact Set offers:

- The most compact and discreet catheter with an integrated and sterile bag
- Can be inserted without touching the catheter tube
- Easy to store and carry
- Instantly ready-to-use with the SpeediCath unique hydrophilic coating

SpeediCath® Standard

Setting the standard for quality catheters

The first instantly ready-to-use hydrophilic coated intermittent catheter.

SpeediCath Standard offers:

- No waiting time - ready when you are
- Clinically proven catheter that is easy-to-use and easy to store
- Offered in male, female and pediatric lengths and a wide variety of french sizes to help meet your specific needs
- Available in a straight tip, coude tip and straight tip with insertion supplies

SpeediCath® Soft

Designed to be simple and easy

Catheter users want the catheterization process to be quick and hygienic. SpeediCath® Soft is designed to make catheterization simple and easy with fast preparation and a confident grip.

SpeediCath Soft offers:

- Pre-lubricated intermittent catheter that is instantly ready-to-use with a unique hydrophilic coating, eliminating the need for additional lubricants or waiting for a catheter to hydrate
- Insertion grip made from a soft, flexible material designed to provide a confident and hygienic grip of the catheter, without touching the tube or tip
- Soft catheter that is easy to use the first time and every time

SpeediCath® for
women

SpeediCath® Compact & Compact Plus

The first compact catheter for women

The innovative and award-winning design of SpeediCath® Compact Female is hygienic and discreet.

SpeediCath Compact Female offers:

- Designed exclusively for women, about the size of a tube of lipstick
- Easy handling during insertion⁸
- Instantly ready-to-use
- Compact Female Plus is available for women who want discretion but require a longer catheter

SpeediCath® Compact Set

The first compact all-in-one catheter and bag solution for women

SpeediCath® Compact Set is an all-in-one catheter and bag set that's instantly ready-to-use and thanks to a revolutionary design, is small enough to keep in a pocket or handbag.

SpeediCath Compact Set offers:

- The most compact and discreet catheter with an integrated and sterile bag
- Can be inserted without touching the catheter tube
- Easy to store and carry
- Instantly ready-to-use with the SpeediCath unique hydrophilic coating

reddot design award
winner 2013

SpeediCath® Standard

Setting the standard for quality catheters

The first instantly ready-to-use hydrophilic coated intermittent catheter.

SpeediCath Standard offers:

- No waiting time - ready when you are
- Clinically proven catheter that is easy-to-use and easy to store
- Offered in male, female and pediatric lengths and a wide variety of french sizes to help meet your specific needs
- Available in a straight tip and straight tip with insertion supplies

†Reimbursement Disclaimer: Coloplast Corp. provides this information for your general reference and related to the reimbursement of Coloplast products only. Reimbursement, coverage and payment policies can vary from one insurer and region to another, and may change over time. Coloplast does not guarantee coverage or payment of products.

Important safety information: SpeediCath® catheters are prescribed for use by patients who require bladder drainage due to urine retention or post void residual volume (PVR). Before use, carefully read all of the instructions. Call your doctor if you think you have a UTI or can't pass the catheter into the bladder. For more information regarding risks, potential complications and product support, call Coloplast Corp. at 1-866-226-6362 and/ or consult the company website at www.coloplast.us.

Prior to use, refer to product labeling for complete product instructions for use, contraindications, warnings and precautions.

Connect to confidence

Coloplast Care is a product and lifestyle support program that helps intermittent catheter users become confident in their routine. Coloplast Care provides:

Clinician-validated education

Clinician-validated education provided via website, emails and Welcome Kit*

My Continence Check

Keep track of your bladder routine through regular self-assessment

Phone support

Individualized lifestyle support and product access coordination

Product access and guidance

Access to product samples** and support finding a supplier that is in-network with your insurance

 **Call 1-866-226-6362**  **Email care-us@coloplast.com**  **Visit www.bladder.coloplastcare.us**

*Welcome Kit contents may vary. Limitations apply
