Effective June 2025

The right fit is key to reducing leakage

Leakage affects the majority of ostomy patients[1]

Leakage

Skin issues

76%

of ostomates experience leakage[1]

66%

of nurses consider leakage to be a main reason for peristomal skin complications[2]
BodyFit Technology is an elastic adhesive that is unique to all SenSura® Mio barriers

- **Adheres securely** to the body to protect the skin
- **Flexible** to maintain a secure fit during body movement
- **Flows** into creases and folds to prevent leakage

The above image is the SenSura Mio barrier conforming to the curves of the hand and flexing with movement

BodyFit Technology®

2. Fellows J, Voegeli D, Håkan-Bloch J, et. al. Multinational survey on living with an ostomy: prevalence and impact of peristomal skin complications. British Journal of Nursing. 2021;30(16):947-S44.

# Ostomy care for skin, body and mind

SenSura® Mio
Finding the right fit is essential to help reduce leakage and skin complications
Flat
Features a unique elastic adhesive that follows body shape and movement.

Convex
Provides stability without compromising flexibility. Available in Soft, Light, and Deep to fit a wide range of patient needs.

Convex Flip
The only barrier specifically designed for outward curves. Just flip to fit!

Because every fit matters

Ostomy care for skin, body and mind

Supporting your care of every patient
Our complete portfolio of 1-piece and 2-piece pouching systems can meet the unique needs of your patients.

2-piece Click pouching systems
Mechanical coupling with a locking mechanism for security you can hear

2-piece Flex pouching systems
Adhesive coupling provides the convenience of a 2-piece with the flexibility of a 1-piece

1-piece pouching systems
For a low profile and ultimate flexibility

Innovative pediatric solutions
for little fighters

SenSura® Mio Baby
For babies 30 weeks' gestation to 6 months

- Specifically designed to **meet the needs of premature babies and infants** living with a stoma
- Includes a **refeeding window** for easy access to refeed or expel gas
- **Skin-friendly adhesive** provides long wear time for less disturbances

SenSura® Mio Kids
For kids 6 months to 4 years

Henry
SenSura® Mio Kids User
- **Star-shaped elastic adhesive** has special petals to hug kids' small, round bellies
- Designed with Bodyfit Technology to provide a **flexible fit** to allow children to move freely
- Options available in 1-piece and 2-piece pouching system to **step up as kids grow**

Innovative Supporting Products
to personalize fit

Brava® Supporting Products

Our barrier and pouching systems in combination with Brava® Supporting Products provide a personalized pouching solution to help *reduce leakage* and *help reduce skin issues.*

Brava® Supporting Products
Personalizing ostomy solutions for individual needs

Leakage and skin irritation are two of the most common problems faced by people with an ostomy, and they can carry severe consequences.

76% of ostomates experience leakage[1]

88% of ostomates experience skin issues[2]

95% of all people with an ostomy use supporting products[3]

3.7 supporting products are used on average[3]

Brava® Supporting Products
Personalizing ostomy solutions for individual needs

Brava® Elastic Barrier Strips

Skin-friendly strips are used to "picture frame" around an ostomy barrier for extra security.
- Elastic to follow body contours
- Supports longer wear-time by reducing lifting and rolling of the barrier edges
- Reduces unplanned changes
- Absorbs moisture and even sweat while being active
- Skin-friendly and secure alternative to tape
- Not made with natural rubber latex

Without stretching, apply strips after the barrier has been placed

Brava® Elastic Barrier Strips - Curved
For round or oval barrier shapes

Code	Size	Units	HCPCS*
120700**	5½" strips	20 strips	A4362

**2 strips = 1 billable unit of A4362
Brava® Elastic Barrier Strips - Y shape
Wings provide additional support even in areas like hernia, bulges or deep folds

Code	Size	Units	HCPCS*
120721**	5¾" strips	30 strips	A5121

**3 strips = 1 billable unit of A5121

Brava® Elastic Barrier Strips - Straight
For square or rectangular barrier shapes

Code	Size	Units	HCPCS*
120740**	5¼" strips	20 strips	A4362

**2 strips = 1 billable unit of A4362

Brava® Elastic Barrier Strips - XL
60% larger adhesive than original Curved for increased security & support around the barrier

Code	Size	Units	HCPCS*
12076**	6¾" strips	30 strips	A5121

**3 strips = 1 billable unit of A5121

---

*For important information regarding the use of HCPCS codes listed and code definitions see page 116

Brava® Protective Seal
Proven Leakage Protection

Brava® Protective Seal is **proven** to significantly reduce leakage by creating a **long-lasting** and **personalized** seal between the barrier and skin.

Measurement Diagram

Brava® Protective Seal
Moldable barrier ring designed to adhere securely and protect the skin around the stoma.
- Easy to shape, apply, and removes cleanly in one piece
- Mold to fit any shape of stoma, including oval
- Soft, flexible material adapts to body shape as the wearer bends and stretches
- Unique polymer formulation is designed to hold up against even the most aggressive output
- Alcohol-free and sting-free
- Multiple sizes for a personalized fit
- Not made with natural rubber latex

Units 10, HCPCS* A4385

| Stoma size | Code | | Seal width |
	Thin (2.5 mm)	Thick (4.2 mm)

	12036	12046	Wide (¾", 20 mm)
	12038	12048	Wide (⅞", 23 mm)
	12032	-	Extra wide (1⅛", 29 mm)
1⅛" (27 mm)	12037**	12047	Standard (⅝", 15 mm)
	12033	-	Extra wide (1", 25 mm)
1⅜" (34 mm)	12039	12049	Standard (⅝", 15 mm)

**Denotes seals that fit most patients

Brava® Protective Seal Convex
Moldable barrier ring with convexity to provide support for flush or retracted stomas and patients with deep creases, folds or scars around their stoma.
- Sustains convexity after molding to fit individual stoma shapes, including oval and loop
- High-tack adhesive that flows quickly into skin, filling even the smallest creases
- Erosion resistant composition
- High flexibility to maintain seal during body movement
- Steep sides of convex seal are designed to provide convexity
- Thin edges fit snugly around peristomal area
- Not made with natural rubber latex

Units 10, HCPCS* A4411

Stoma size	Code	Thickness
¾" (20 mm)	12090**	8.2 mm
1" (25 mm)	12091	8.2 mm
1³/₁₆" (30 mm)	12092**	8.2 mm
1⅜" (35 mm)	12093	8.2 mm
1⁹/₁₆" (40 mm)	12094**	8.2 mm
1¾" (45 mm)	12095	8.2 mm

**Denotes seals that fit most patients

Six must-have seals

Brava® Protective Seals are all designed to stretch, mold, and fill creases to even out the peristomal area. Below we've outlined **six seals** that meet most clinical needs.

Seals that fit most patients

For smaller stomas
**Brava Protective Seal #12035**
HCPCS* A4385
- Thin (2.5 mm) moldable ring with a ¾" (18 mm) opening
- Stretches to fit the most common sizes of stomas

2.5 mm

For larger stomas
**Brava Protective Seal #12037**
HCPCS* A4385
- Thin (2.5 mm) moldable ring with a 1⅛" (27 mm) opening
- Stretches to fit larger stomas

2.5 mm

For challenging peristomal areas
Brava Protective Seal #12045
HCPCS* A4385
- Thick (4.2 mm) moldable ring with a ¾" (18 mm) opening
- Fills creases, folds, and scars next to the stoma
- Can shape and use like strip paste to caulk and even out peristomal area prior to sealing area between stoma and barrier with additional ring fit to stoma size**

**May use more than 1 seal on a single patient*

4.2 mm

Seals for patients that need convexity

For flush or retracted stomas or deep creases, folds or scars
Brava® Protective Seal Convex
HCPCS* A4411
#12090: ¾" (20 mm) opening
#12092: 1³/₁₆" (30 mm) opening
#12094: 1⁹/₁₆" (40 mm) opening
- Select convex seal closest to stoma size, then stretch to fit
- Moldable convex ring with 8.2 mm of convexity
- Convex shape protrudes stoma helping output go into pouch
- Sustains convexity even after being stretched and molded

A versatile seal for a personalized fit
Use as a ring to **support the stoma**

Shape and use like caulk to **fill folds, creases, and scars** to even out the peristomal area

Seal and fill gaps between the barrier and the stoma

*For important information regarding the use of HCPCS codes listed and code definitions see page 116

Brava® Moldable Ring

Legacy moldable barrier ring fills uneven skin surfaces to create a durable seal between the stoma and ostomy barrier to protect against leakage.
• Helps keep skin healthy by protecting it from output and absorbing moisture from the skin
• Alcohol-free and sting-free
• Not made with natural rubber latex

Code	Size	Units	HCPCS*
120307	2 mm (thin)	10	A4385
120427	4.2 mm (thick)	10	A4385

Brava® Strip Paste

Easy to shape and mold paste strips, fill uneven surfaces for a flat pouching surface.
• Protects peristomal skin from stoma output
• Contains pectin
• Alcohol-free and sting-free
• Not made with natural rubber latex

Code	Size	Units	HCPCS*
26555	2 oz. total package (0.2 oz. per strip)	10 strips	A4406

Brava® Paste

Paste is sting-free and is used to fill uneven skin surfaces for a flat pouching surface.
• Use like caulk to fill creases, folds and scars
• Creates a tight seal between peristomal skin and the ostomy/fistula appliance
• A sting-free alternative to conventional alcohol-based paste
• No alcohol = no need to "set"; contains pectin
• Not made with natural rubber latex

Code	Size	Units	HCPCS*
12050	2 oz.	1	A4406

Coloplast® Paste

Legacy paste is used to fill uneven skin surfaces for a flat pouching surface.
• Protects against stoma output
• Low alcohol content; no pectin
• Not made with natural rubber latex

Code	Size	Units	HCPCS*
2650	2 oz.	12	A4405

Brava® Skin Cleanser Wipes

The wipe that cleans and cares. A convenient way to cleanse and maintain healthy skin when changing the ostomy pouching system.
• Does not contain alcohol or perfumes
• No residue left on the skin that could affect barrier adhesion
• Not made with natural rubber latex

Code	Size	Units	HCPCS*
12080	1 wipe	15 wipes/pack	A9286**

Brava® Lubricating Deodorant

A pouch lubricant and deodorizer in one. Add inside pouch to neutralize odor and create a slick surface, allowing output to slide to the bottom of the pouch for easier emptying.
• Powder fresh smell
• Not made with natural rubber latex

Code	Size	Units	HCPCS*
12060	.25 fl. oz. (7.5 mL) sachet	20 sachets	A4394
12061	8 oz. bottle	16 bottles	A4394

Brava® Adhesive Remover Spray

Quick and easy removal of adhesives.
• Designed to lift the edges of the barrier for ease in removal
• Dries within seconds without leaving an oily residue behind
• Alcohol-free, silicone-based, and sting-free
• Spray at any angle
• Spray can be completely emptied, reducing waste
• Not made with natural rubber latex

Code	Size	Units	HCPCS*
120105	1.7 oz. (50 mL)	1	A4455**

Brava® Adhesive Remover Wipes

Wipe away adhesive residue.
• Skin-friendly wipes contain silicone to be gentle on the skin and allows for easy removal of the barrier
• Dries within seconds without leaving an oily residue behind
• Alcohol-free, silicone-based, and sting-free
• Not made with natural rubber latex

Code	Size	Units	HCPCS*
120115	1 wipe	30 wipes/box	A4456**

Brava® Skin Barrier Spray

Creates an invisible skin friendly layer to protect the skin from output and adhesives.
• Dries matte and within seconds without building a thick or tacky layer
• Alcohol-free, silicone-based, and sting-free
• Improves skin condition by reducing skin problems related to output and adhesives
• Adhesion of next pouching system is unaffected
• Not made with natural rubber latex

Code	Size	Units	HCPCS*
120205	1.7 oz. (50 mL)	1	A4369**

*For important information regarding the use of HCPCS codes listed and code definitions see page 116

**Product has not been through PDAC verification

Brava® Skin Barrier Wipes

Convenient wipe creates an invisible skin friendly layer to protect the skin from output and adhesives.
• Improves skin condition by reducing skin problems related to output and adhesives
• Adhesion of next pouching system is unaffected
• Dries matte and within seconds without building a thick or tacky layer
• Alcohol-free, silicone-based, and **sting-free**
• Not made with natural rubber latex
Tip: Wring the wipe like a wet rag to expel the liquid, then dab to disperse on skin
Code	Size	Units	HCPCS*
120215	1 wipe	30 wipes/box	A5120**

Brava® Protective Sheet

Skin friendly hydrocolloid skin barrier that protects the skin from stoma output.
• Adheres to moist skin
• Absorbs moisture and minimizes the risk of maceration
• Easy to cut to fit stoma or desired shape
• Provides a ready surface for good adhesion
• Not made with natural rubber latex
Without stretching, apply sheet before adding a seal or the pouching system

Code	Size	Units	HCPCS*
32105	4 x 4" (10 x 10 cm)	10	A4362
32155	6 x 6" (15 x 15 cm)	5	A5121
32205	8 x 8" (20 x 20 cm)	5	A5122

Brava® Powder

Non-sterile powder for moisture absorption to reduce risk of skin irritation.
• May use in conjunction with Brava® Skin Barrier Spray/Wipes or Prep™ Protective Skin Barrier to "crust", thereby protecting moist skin
• Not made with natural rubber latex

Code	Size	Units	HCPCS*
19075	1 oz. (25 g)	16	A4371

Hex-On® Odor Antagonist

Air spray tackles and controls airborne odors.
• Non-aerosol spray
• Available in both Fresh Linen and Fragrance Free scent
• Not made with natural rubber latex

Code	Product	Size	Units
7583	Fresh Linen	2 fl. oz./59 mL	12
67589	Fragrance Free	2 fl. oz./59 mL	12

Ostomy Scissors

Curved ostomy scissors.
• Not made with natural rubber latex

Code	Size	Units	HCPCS*
95050	One size	30/bx	N/A

Coloplast® Skin Barrier Rings

Soft and flexible legacy barrier rings provide skin protection for stomas, fistulas, and draining wounds.
• Not moldable
• Non-pectin based
• Not made with natural rubber latex

Code	Size	Units	HCPCS*
2310	⅜" (10 mm)	30	A4404
2315	⅗" (15 mm)	30	A4404
2320	¾" (20 mm)	30	A4404
2325	1" (25 mm)	30	A4404
2330	1⅛" (30 mm)	30	A4404
2340	1⅗" (40 mm)	30	A4404
2350	2" (50 mm)	30	A4404

Prep™ Protective Skin Barrier

Clear film forms a breathable barrier protecting against skin irritants such as output and adhesives.
• No need to remove between applications
• Contains alcohol
• Not made with natural rubber latex

Wipes

Code	Size	Units	HCPCS*
2041	54 wipes/pack	12 packs/box	A5120

Dabber

Code	Size	Units	HCPCS*
0925	2 fl. oz. (59 mL)	12	A4369

Filtrodor® Pouch Filters

Charcoal-activated, deodorizing filter with self-sealing foam center.
• Adheres directly to pouch
• In sheets of 10 filters with a needle to create perforation for airflow
• Box of 50 filters includes 5 needles
• Not made with natural rubber latex

Code	Units	HCPCS*
0509	50 *each / box contains 5 packs of 10*	A4368

Coloplast® Pouch Clamp

Simple closure clamp for drainable pouch, is easy to manipulate, even for those with low dexterity.
• Not made with natural rubber latex

Code	Units	HCPCS*
9500	20	A4363

*For important information regarding the use of HCPCS codes listed and code definitions see page 116
**Product has not been through PDAC verification

Brava® Ostomy Support Belt

This belt relieves the heavy sensation of hernias and is designed to prevent hernias post-operatively.
• Comfortable and breathable fabric
• Stretchable to fit body contours
• Intuitive pocket closure
• Includes a silicone grip to prevent sliding and rolling
• Cut to fit panel can be used to have pouch on outside
• Not made with natural rubber latex
• All sizes are an 8" width
Tip: Measure before ordering, sizes specific to belt

Code	Size	Units	HCPCS*
12003	S (29-32")	1	A4396
12004	M (31-35")	1	A4396

12008	3XL (44-51")	1	A4396
12009	4XL (50-58")	1	A4396

Brava® Belt for SenSura® Mio

Belt is designed with double hooks for SenSura® Mio barriers to provide extra stability across the entire peristomal area.
• Offers extra security for people with a flush or retracted stoma by supporting a convex barrier and allowing the stoma to protrude
• Adjustable, comfortable and washable
• Neutral gray color blends in under clothing
• Four tabs connect belt to SenSura Mio products with belt tabs
• Not made with natural rubber latex
Tip: Measure before ordering

Code	Size	Units	HCPCS*
4237	Up to 40" length	15	A4367
4247	Up to 61" length	15	A4367

Brava® Belt

Designed with single hooks to be compatible with most conventional ostomy products with belt tabs. The belt provides extra stability across the entire peristomal area.
• Offers extra security for people with a flush or retracted stoma by supporting a convex barrier and allowing the stoma to protrude
• Adjustable, comfortable and washable
• Neutral gray color blends in under clothing
• Not made with natural rubber latex
• *Tip: Measure before ordering*

Code	Size	Units	HCPCS*

4220	Up to 49" length	15	A4367

Coloplast® Urostomy Night Bag

Designed for urine output, the bag includes a fixed connector that fits directly to SenSura® Mio (including SenSura® Mio Kids), SenSura® and Assura® urostomy pouches.
• Holds up to 2 liters (2000 mL)
• 120 cm long flexible tube with anti-reflux valve
• Bag hanger (#5070) not included- order separately
• Not made with natural rubber latex

Code	Units	HCPCS*
21365	10	A4357

Coloplast® Bed Drainage Bag

Wide-lumen bag tubing specifically designed for fecal output.
• Holds up to 2 liters (2000 mL)
• Can be cut to find right length for bed drainage
• Compatible with fistula and wound management systems or high-output pouches
• Bag hanger (#5070) not included- order separately
• Not made with natural rubber latex

Code	Units	HCPCS*
14010	6	A4357

Coloplast® Bag Hanger

Reusable, sturdy, plastic drainage bag hanger secures tubing and ensures bag stability.
• Not made with natural rubber latex

Code	Size	Units	HCPCS*
5070	One Size	1	Medicare N/A Other A4421

Coloplast® Fistula Drain Port

For use with Fistula and Wound Management Systems (page 93). Drain port can be easily applied to the lid to allow for catheter insertion.
• For catheters ranging from 18FR - 22FR, the drain port is ready for use
• For catheters ranging from 24FR - 30FR, pull off the top of the drain port - DO NOT CUT
• Not made with natural rubber latex

Code	Units
14015	12

Coloplast® Transparent Fistula Lid

For use with Fistula and Wound Management Systems (page 93). Replacement lids match the transparent lid included with each fistula pouch.
• Not made with natural rubber latex

Code	Size	Units
14021	Mini (matches 14050)	10

SenSura® Mio

Because *every fit* matters

• All **SenSura® Mio** barriers feature **BodyFit Technology** – a unique, elastic adhesive that quickly adheres to the skin and flows into creases and folds

• **SenSura Mio** provides a secure, comfortable fit that allows your patients to feel secure and confident

SenSura® Mio Click

All the benefits of BodyFit Technology in a 2-piece mechanical coupling system

- Reassurance and security with a tactile lock ring
- Mechanical coupling can be repositioned while it remains on the patient's body
NOTE: SenSura® Mio Click is **NOT** compatible with SenSura® Click or Assura® systems.

SenSura® Mio Click Barrier
- Extended wear
- Flat
- Belt tabs for use with 4237, 4247
- Not made with natural rubber latex

Urostomy

SenSura® Mio Uro
Wide anti-reflux valves support varying ways of managing stents:

Wide anti-reflux valves

- Stents threaded into a pouch connected to a night drainage bag

- Rolling the stents in the top of the pouch, making a loop

- Stents that have been cut

Welded "multi-chambers" minimize ballooning
SenSura® Mio Click MAXI Urostomy Pouch
- Multi-chambers minimize sloshing
- Wider anti-reflux valves prevent urine from washing over the stoma
- Soft outlet can be connected to urostomy night bag #21365 or any standard night or leg bag
- Neutral gray, water-resistant textile
- Not made with natural rubber latex

SenSura® Mio

Patients deserve proven leakage reduction[1] from the start

A multi-site US acute care study showed **SenSura® Mio users had 41% lower risk of leakage** compared to users of Hollister® CeraPlus[1™*]

1. Based on a retrospective study conducted at 2 affiliated university hospitals; n=214 patient charts with surgery dates ranging from February 2022 to June 2023. Patient events were charted by the WOC nurse at each pouch change; review captured up to 5 pouch changes or 2 weeks of data. Statistical analysis controlled for key differences between sites and found predicted probability of leakage for SenSura Mio was 15.1% and Hollister® CeraPlus™ was 25.6%, corresponding to a 40.8% lower risk (p=0.011). Zamarripa, C. et al. Pouching System Leakage and Peristomal Skin Complications Following Ostomy Surgery in the Immediate Postoperative Period: A Retrospective Review. J Wound Ostomy Continence Nurs 2024;51(6):478-483.

Ask us about our pediatric education!

Pediatric FAQ for parents & caregivers
Tipsheet with answers to frequently asked questions, like "what do I do if friends and family - or other kids - have questions?" and "what do I do if my child pulls the pouch off?" Available in English and Spanish.
Caregivers can request this from our Coloplast Care program.

My child has an ostomy: resource sheet for caregivers
A fill-in-the-blank sheet to help parents communicate about their child's needs to daycare providers, school nurses, and other caregivers.
Caregivers can request this from our Coloplast Care program.

Life after your child's ostomy
A booklet covering an overview of anatomy, how to change a pouch, pouching system options, where to get supplies, dietary notes, and other information. Available in English and Spanish.
Caregivers can request this from our Coloplast Care program.

When I met Tipster: A coloring book for children with ostomies
A simple coloring book to help kids engage with their ostomy surgery and "new normal" - or learn more about a sibling's ostomy.
Available to healthcare facilities via Coloplast sales representatives, or caregivers can request from our Coloplast Care program.

Jake Gets a Stoma
A children's book written by Jake's mom, who wanted a better way to explain the surgery and stoma management to her son and other kids going through the same thing.
Available to healthcare facilities via Coloplast sales representatives, or caregivers can request from our Coloplast Care program.

SenSura® Mio Bunny
Coloplast offers a complimentary training bunny for product education use with both SenSura® Mio Baby & Kids. *Available to healthcare facilities via Coloplast sales representatives.*

Limitations apply. The SenSura® Mio Bunny is provided to healthcare facilities for families for teaching purposes only and should only be used with Coloplast products.

Teen life with an ostomy
Navigating school, what to wear, and hanging out with friends aren't covered by the average adult-oriented materials - that's why we're so excited to feature tips from Paige, a teen who's been through it all!
Caregivers can request this from our Coloplast Care program.

Information from Coloplast Care is for educational purposes only. It is not intended to substitute for professional medical advice and should not be interpreted to contain treatment recommendations. You should rely on the healthcare professional who knows your individual history for personal medical advice and diagnosis.

Night Drainage Bags

Urostomy Night Bag and Bag Hanger
Using **Brava**® Supporting Products with Pediatrics

Based on updated documentation guidelines, real-life use, and existing biological evaluation reports, Coloplast reassessed the risk to pediatrics with the use of supporting products. Updated guidelines are provided below.

Product	Caution
Brava® Protective Seal	No caution
Brava® Protective Seal Convex	
Brava® Elastic Barrier Strips	
Brava® Protective Sheet	
Brava® Lubricating Deodorant	
Brava® Skin Cleanser Wipes	
Brava® Moldable Ring	*This product is non-sterile and should be used with caution on premature babies or infants receiving incubator care as it may lead to increased risks of infection.*
Brava® Strip Paste	
Brava® Paste	
Brava® Powder	
Brava® Adhesive Remover Wipes	*Not recommended to be used on premature infants, neonates or infants below 4 kg (8.8 lbs) because of their immature skin.*
Brava® Skin Barrier Wipes	
Brava® Adhesive Remover Spray	*Not recommended to be used on premature infants, neonates or infants below 4 kg (8.8 lbs) because of their immature skin. Avoid direct inhalation as it may give rise to temporary irritation of the airways.*
Brava® Skin Barrier Spray	

Any use outside of our indication is considered off-label use and is up to the clinician's own discretion. Clinicians must weigh the risks and benefits of available products to make an informed and appropriate decision for each patient.

Making life easier

Delivering Personalized Care Solutions.
Simply. Reliably. For you.

About the team

Coloplast Care Advisors assist patients with their intimate healthcare needs, by providing personalized lifestyle and product advice and ongoing resources. We will assist in coordinating communications with a supplier to place an order when appropriate, or refer back to clinicians if there are concerns.

Tell your patients we will be calling from:
1-877-858-2656 Hablamos español
www.ostomy.coloplastcare.us

Ostomy patients enrolled experienced:

~30%↓
Reduction in hospital readmission rates[†1]

~45% ↓
Reduction in unnecessary ER visits[‡1]

~25% ↑
Increase in HCAHPS satisfaction scores[†2]

Each person's situation is unique and risks, outcomes, experience, and results may vary.

Ostomy patients that engage with our Coloplast Care Advisors do better over time and **had statistically fewer peristomal skin conditions[3]**

Cut the barrier to fit the exact size and shape of the stoma

Make sure the skin around the stoma is clean and dry

- Use water and a clean cloth
- Ensure all residue is removed
- Do not use soaps, moisturizers, or oil-based products as these may affect adhesion
- Consult your Wound Ostomy Continence (WOC) nurse for questions about supporting products

Apply gentle hand pressure to the entire barrier to initiate adhesion

- Run a finger around the stoma, then smooth outwards to the edges
- Ensure the entire barrier has been massaged into the skin

For product support call the Coloplast Care Clinician Support Line at 1-855-863-3912

Close drainable pouches prior to use

- For a drainable fecal pouch, fold the outlet towards the head of the patient three times. Fold the two turqoise tabs inwards to secure the VELCRO® brand fastener.
When using a 2-piece system, grab both a barrier and a pouch

- For **SenSura® Mio Flex**, align the edge of the adhesive ring with the turquoise ring on the outer rim of the barrier and apply gentle pressure around the barrier coupling to secure.

SenSura® Mio Flex

- For **SenSura® Mio Click**, ensure the coupling is securely fastened all the way around. Press firmly at the 6 o'clock position and run your fingers around to the 12 o'clock position. Remember to lock the mechanical ring after the pouch is applied. The coupling will "click" when it is locked.
SenSura® Mio Click

For product support call the Coloplast Care Clinician Support Line at 1-855-863-3912

Medicare Utilization - Ostomy

Usual maximum limits for some products from the Medicare Local Coverage Determinations (LCD) are shown below. The amount of ostomy supplies varies by patient based on the type of ostomy, its location, its construction, and the condition of the peristomal skin. The table below shows the maximum number of items that are usually medically necessary for patients with ostomies. It may be more or less depending on the factors that affect the frequency of barrier and pouch change. The medical necessity for a greater quantity of supplies must be clearly documented in the patient's medical record (physician's signed and dated order).

HCPCS*	Short Description	Usual Maximum
A4357	Bedside drainage bag	2 ea/month
A4361	Ostomy faceplate, each	3 ea/6 months

A5056	One-piece drainable ostomy pouch, extended wear with filter	40 ea/month
A5057	One-piece drainable ostomy pouch extended wear with filter, CONVEX	40 ea/month
A5061	One-piece ostomy drainable pouch and barrier, FLAT	20 ea/month
A5063	Two-piece ostomy drainable pouch for barrier with flange	20 ea/month
A5071	One-piece ostomy urinary pouch	20 ea/month
A5073	Two-piece ostomy urinary pouch	20 ea/month
A5120	Skin barrier, wipes or swabs, each	150 ea/6 months
A5121	Solid skin barrier, 6x6 or equivalent, each**	20 ea/month
A5122	Solid skin barrier, 8x8 or equivalent, each	20 ea/month
A6154	Wound pouch, each	3/week

* No published Medicare usual maximum. Monthly quantity subject to medical necessity documentation.
**Elastic Barrier Strips - Y-shape or XL: 60 strips/month

HCPCS Code Reference

A4357	Bedside drainage bag, day or night, with or without anti-reflux device, with or without tube, each
A4361	Ostomy faceplate, each
A4362	Solid skin barrier; solid, 4x4 or equivalent; each
A4363	Ostomy clamp, any type, replacement only, each
A4366	Ostomy vent, any type, each
A4367	Ostomy belt, each
A4368	Ostomy filter, any type, each
A4369	Ostomy skin barrier liquid (spray, brush, etc.), per ounce
A4371	Ostomy skin barrier powder, per ounce
A4372	Ostomy skin barrier, solid 4x4 or equivalent, standard wear, with built-in convexity, each
A4373	Ostomy skin barrier, with flange (solid, flexible or accordion), with built-in convexity, any size, each
A4385	Ostomy skin barrier, solid 4 x 4 or equivalent, extended wear, without built-in convexity, each
A4388	Ostomy pouch, drainable, with extended wear barrier attached, (1 piece), each
A4389	Ostomy pouch, drainable, with barrier attached, with built-in convexity (1-piece), each
A4390	Ostomy pouch, drainable, with extended wear barrier attached, with built-in convexity (1-piece), each
A4391	Ostomy pouch, urinary, with extended wear barrier attached (1-piece), each
A4392	Ostomy pouch, urinary with standard wear barrier attached, with built-in convexity (1-piece), each
A4393	Ostomy pouch, urinary, with extended wear barrier attached, with built-in convexity (1 pc), each
A4394	Ostomy deodorant, with or without lubricant, for use in ostomy pouch, per fluid ounce
A4396	Ostomy belt with peristomal hernia support
A4397	Irrigation supply; sleeve, each
A4398	Ostomy irrigation supply; bag, each
A4399	Ostomy Irrigation supply; cone /catheter, with or without brush
A4404	Ostomy ring, each
A4405	Ostomy skin barrier, non-pectin based, paste, per ounce
A4406	Ostomy skin barrier, pectin-based, paste, per ounce
A4407	Ostomy skin barrier, with flange (solid, flexible, or accordion), extended wear, with built-in convexity, 4x4 inches or smaller, each
A4408	Ostomy skin barrier, with flange (solid, flexible or accordion), extended wear, with built-in convexity, larger than 4x4 inches, each

HCPCS Code Reference

A4409	Ostomy skin barrier, with flange (solid, flexible or accordion), extended wear, without built in convexity, 4x4 inches or smaller, each
A4410	Ostomy skin barrier with flange (solid, flexible or accordion), extended wear, without built-in convexity, larger than 4x4 inches, each
A4411	Ostomy skin barrier, solid 4x4 or equivalent, extended wear, with built-in convexity, each
A4412	Ostomy pouch, drainable, high output, for use on a barrier with flange (2-piece system), without filter, each
A4413	Ostomy pouch, drainable, high output, for use on a barrier with flange (2 piece system) with filter, each
A4414	Ostomy skin barrier, with flange (solid, flexible or accordion), without built-in convexity, 4x4 inches or smaller, each
A4415	Ostomy skin barrier, with flange (solid, flexible or accordion), without built-in convexity, larger than 4x4 inches, each
A4416	Ostomy pouch, closed, with barrier attached, with filter (1-piece,) each
A4417	Ostomy pouch, closed, with barrier attached, with built-in convexity, with filter (1-piece), each
A4418	Ostomy pouch, drainable, high output, for use on a barrier with flange (2-piece system), without filter, each
A4419	Ostomy pouch, closed; for use on barrier with non-locking flange, with filter (2-piece), each
A4421	Ostomy supply; miscellaneous
A4422	Ostomy pouch absorbent material (sheet, pad, crystal packet) for use in ostomy pouch to thicken liquid stomal output, each
A4423	Ostomy pouch, closed; for use on barrier with locking flange, with filter (2-piece), each
A4424	Ostomy pouch, drainable, with barrier attached, with filter (1-piece), each
A4425	Ostomy pouch, drainable; for use on barrier with non-locking flange, with filter (2-piece system), each
A4426	Ostomy pouch, drainable; for use on barrier with locking flange (2-piece system), each
A4427	Ostomy pouch, drainable; for use on barrier with locking flange, with filter (2 piece system), each
A4428	Ostomy pouch, urinary, with extended wear barrier attached, with faucet-type tap with valve (1-piece), each
A4429	Ostomy pouch, urinary, with barrier attached, with built-in convexity, with faucet-type tap with value (1-piece), each
A4430	Ostomy pouch, urinary, with extended wear barrier attached, with built-in convexity, with faucet-type tap with valve (1-piece), each
A4431	Ostomy pouch, urinary; with barrier attached, with faucet-type tap with valve (1- piece), each
A4432	Ostomy pouch, urinary; with barrier attached, with faucet-type tap with value (1- piece), each
A4433	Ostomy pouch, urinary; for use on barrier with locking flange (2-piece), each
A4434	Ostomy pouch, urinary; for use on barrier with locking flange, with faucet-type tap with valve (2-piece), each
A4435	Ostomy pouch, drainable, high output, with extended wear barrier (1-piece system), with or without filter, each
A4436	Irrigation supply; sleeve, reusable, per month
A4437	Irrigation supply; sleeve, disposable, per month

HCPCS Code Reference

Code	Description
A4455	Adhesive remover or solvent (for tape, cement or other adhesive), per ounce
A4456	Adhesive remover, wipes, any type, each
A5055	Stoma cap
A5056	Ostomy pouch, drainable, with extended wear barrier attached, with filter (1-piece), each
A5057	Ostomy pouch, drainable, with extended wear barrier attached, with built in convexity, with filter, (1-piece), each
A5061	Ostomy pouch, drainable; with barrier attached, (1-piece), each
A5062	Ostomy pouch, drainable; without barrier attached (1-piece), each
A5063	Ostomy pouch, drainable; for use on barrier with flange (2-piece system), each
A5071	Ostomy pouch, urinary; with barrier attached (1-piece), each
A5072	Ostomy pouch, urinary; without barrier attached (1-piece), each
A5073	Ostomy pouch, urinary; for use on barrier with flange (2-piece), each
A5093	Ostomy accessory; convex insert
A5120	Skin barrier, wipes or swabs, each
A5121	Skin barrier; solid, 6x6 or equivalent, each
A5122	Skin barrier; solid, 8x8 or equivalent, each
